BRAIN BASED SAFETY

TOOLBOX

Increase safety awareness together!

Use the Brain Based Safety Toolboxes to discuss safety in a simple and structured way within your team.

THE TOOLBOXES

Theory
Gain insight through short animated videos into how behavior arises and which competences play a role.

Reflection
Discuss the questions that appear during the video and link the theory to your own work situation.

Learning from Each Other
Discover together how to work more safely. Recognize unconscious patterns and provide each other with valuable feedback.

Included
- Digital Toolbox platform
- Animation video with discussion questions
- Facilitator instructions
- Poster

10 Toolbox Themes

Safe behavior
How does behavior arise
